

INSPIRATION BOOK

**ISO
PLAM**

concreativity

**Lo sa bene ISOPLAM
che alla Natura s'ispira.**

Ogni nostra creazione svela l'anima creativa del cemento, il gioco delle materie prime naturali che si scompongono e ricompongono secondo ritmiche ed equilibri irripetibili.

Nella sua grande versatilità, la Natura ci insegna a cogliere bellezza, esclusività e carattere di ogni sua sfumatura. Ognuna diversa dall'altra. Come diverse sono le nostre collezioni.

Pavimenti e rivestimenti decorativi che raccontano il fascino dell'originalità. Personalizzazioni estreme con colori, effetti e texture sempre differenti. Scelte stilistiche e soluzioni tecniche che si intonano alle molteplici espressioni della Natura e alla sua infinita fantasia.

**ISOPLAM is well aware
that it is inspired by Nature.**

Each of our creations reveals the creative soul of concrete, the play of natural raw materials that break down and recompose according to unrepeatable rhythms and balances.

In its great versatility, Nature teaches us how to grasp the beauty, uniqueness and personality of each of its nuances. Each different from the other. Just like our collections are.

Decorative floors and wall coverings that convey the charm of originality. Extreme customizations with always different colors, effects and textures. Stylistic choices and technical solutions that match the multiple expressions of Nature and its infinite imagination.

CONCREATIVITY

Quando la tua creatività progettuale e la nostra conoscenza del cemento si incontrano, nascono superfici a basso spessore impeccabili e destinate a durare nel tempo. Da 40 anni, Isoplam produce i materiali, cura la posa in opera e garantisce la qualità del lavoro finito. Sembra una normale texture, ma tu e noi sappiamo che questa è Concreativity.

**Lasciati ispirare dalle nostre realizzazioni
oppure scegli il colore giusto per te.**

When your design creativity and our knowledge of concrete meet each other, flawless low-thickness floors are born, destined to last over time. For 40 years Isoplam has been producing materials, taking care of the installation and guaranteeing the quality of the finished work. It looks like a normal texture, but you and we both know that this is Concreativity.

**Be inspired by our creations
or choose the right color for you.**

TRASFORMISTA PER NATURA TRANSFORMIST BY NATURE

Pietra, mattoni, legno, piastrelle, marmo. Plam Stampable può prendere le sembianze di qualsiasi materiale. La naturale creatività del cemento stampato rende tale collezione straordinariamente versatile perché capace di simulare in modo realistico ogni tipo di pavimentazione tradizionale. Personalizzabile nei colori e nelle texture che si preferiscono, racconta allo sguardo una grande varietà di materiali, forme, tonalità sempre diverse svelando, realizzazione dopo realizzazione, la sua natura trasformista. Particolarmente indicato per gli ambienti esterni, non teme il passare del tempo e delle stagioni perché privo di punti deboli ed estremamente resistente.

Stone, brick, wood, tiles, marble. Plam Stampable can take the form of any material. The natural creativity of stamped concrete makes this collection extraordinarily versatile because it is capable of realistically simulating any type of traditional flooring. Customizable in the colors and textures you prefer, it reveals to the eye a great variety of materials, shapes, shades that are always different, revealing, creation after creation, its transforming nature. Particularly suitable for outdoor environments, it does not fear the passage of time and the seasons because it has no weak points and is extremely resistant.

PLAM RENOVA

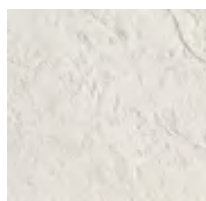

OUTDOOR

RINNOVA, ANTICHIZZA E COLORA CON ELEGANZA RENEWS, ANTIQUATES AND COLORS WITH ELEGANCE

Plam Renova è la soluzione ideale per chi desidera rinnovare e valorizzare superfici in calcestruzzo stampato o Stampable Overlay, restituendo loro nuova vita e un aspetto raffinato. Grazie alla sua formulazione innovativa, permette di antichizzare e colorare facilmente, trasformando anche le pavimentazioni più datate in elementi di design di alta classe. Che si tratti di restaurare vecchi pavimenti o di personalizzare con dettagli esclusivi, Plam Renova garantisce un risultato perfetto, rapido e duraturo. Disponibile in sette eleganti colori, è un prodotto pensato per soddisfare le esigenze dei professionisti più esigenti nel settore delle superfici decorative.

Plam Renova is the ideal solution for those looking to renew and enhance stamped concrete or Stampable Overlay surfaces, restoring their life and sophisticated appearance. With its innovative formulation, it easily antiquates and colors, transforming even the oldest floors into high-class design elements. Whether restoring old pavements or adding exclusive details, Plam Renova ensures perfect, fast, and long-lasting results. Available in seven elegant colors, it is a product designed to meet the needs of the most demanding professionals in the decorative surface industry.

SUPERFICI NATURALI E LEGGERE NATURAL AND LIGHT SURFACES

Plam Rock offre una vasta gamma di possibilità per creare rocce artificiali, cascate, scalini, tavoli e altro ancora. Grazie alla sua malta fibrata monocomponente, è facile da modellare e garantisce risultati realistici e dettagliati. Perfetto per giardini, parchi tematici e piscine, Plam Rock si adatta a una varietà di superfici e offre resistenza agli agenti atmosferici e agli urti. Con l'uso di attrezzi specializzati e stampi in gomma, è possibile creare elementi scenografici in tempi rapidi, mantenendo una qualità duratura e idrorepellente.

Plam Rock offers a wide range of possibilities for creating artificial rocks, waterfalls, steps, tables, and more. Thanks to its single-component fibrous mortar, it is easy to shape and guarantees realistic and detailed results. Perfect for gardens, theme parks, and pools, Plam Rock adapts to a variety of surfaces and offers resistance to weathering and impact. With the use of specialized tools and rubber molds, scenic elements can be created quickly, maintaining lasting quality and water-repellent properties.

GHIAINO LAVATO
EXPOSED AGGREGATE PAVING

20-50 mm | spessore
thickness

ANIMA ECOLOGICA ECOLOGICAL ESSENCE

Il ghiaio lavato Italian Terrazzo unisce il fascino irregolare del ghiaio con la massima praticità e resistenza nel tempo. Questa soluzione, anche nota come sasso lavato, offre superfici esterne eleganti e di grande impatto. La posa di Italian Terrazzo è semplice e adattabile sia su calcestruzzo fresco che su pavimenti esistenti. Ecologico, il ghiaio lavato Isoplam mescola cemento, graniglia di marmi pregiati e una miscela fibrorinforzata colorata. Grazie alla levigatura, è possibile ottenere un effetto simile al "terrazzo alla veneziana", ideale per interni di pregio. Utilizzati per decorare piazze, marciapiedi, e centri storici, i pavimenti in ghiaio lavato rappresentano una scelta versatile e raffinata.

Italian Terrazzo washed gravel combines the irregular charm of gravel with maximum practicality and long-lasting resistance. This solution, also known as washed stone, offers elegant and impactful outdoor surfaces. Installing Italian Terrazzo is simple, requiring only a thickness of 30 mm, adaptable to both fresh concrete and existing floors. Ecological, Isoplam washed gravel mixes cement, fine marble aggregate, and a colored fibro-reinforced mixture. Through polishing, a finish akin to "Venetian terrazzo" can be achieved, perfect for prestigious indoor spaces.

ELEGANZA SENZA TEMPO TIMELESS ELEGANCE

Terrazzooverlay è la superficie decorativa che permette di riprodurre in un basso spessore, soli 4-8 mm, la tipica, elegante texture e la raffinatezza del terrazzo alla veneziana. Un classico della creatività italiana nell'architettura e decorazione di interni viene interpretato e trasformato da Isoplam in una soluzione estremamente versatile: la possibilità di personalizzare la miscela di marmo italiano, anche con l'aggiunta di inserti in madreperla e pietre naturali, permette di realizzare pavimenti ogni volta unici, moderni e ricercati ma al tempo stesso estremamente resistenti.

Terrazzooverlay is the decorative surface that allows you to reproduce the typical, elegant texture and refinement of the Venetian terrazzo in a low thickness, just 4 8 mm. A classic of Italian creativity in architecture and interior decoration is interpreted and transformed by Isoplam into an extremely versatile solution: the possibility of customizing the Italian marble blend, also with the addition of mother-of-pearl and natural stone inserts, allows you to create unique, modern and refined floors every time, but at the same time extremely resistant.

STILE E PERFORMANCE STYLE AND PERFORMANCE

Microoverlay offre uno straordinario impatto estetico con uno spessore di soli 3 millimetri. Il microcimento di Isoplam, versatile e personalizzabile, si adatta a qualsiasi stile architettonico, dal moderno all'industriale. Con una gamma infinita di colori e finiture, Microoverlay trasforma pavimenti, pareti e arredi, integrandosi perfettamente in ambienti interni ed esterni. La sua aderenza permette l'applicazione su vari materiali, mentre la resistenza al traffico medio e l'impermeabilità lo rendono ideale per diverse aree. La superficie continua, igienica e facile da pulire, con la compatibilità al riscaldamento a pavimento, fa di Microoverlay la scelta ottimale per uno stile senza compromessi.

Microoverlay, Isoplam's design surface, delivers extraordinary aesthetic impact with only 3 millimeter thickness. The versatile and customizable microcement suits any architectural style, from modern to industrial. With an infinite range of colors and finishes, Microoverlay transforms floors, walls, and furnishings, seamlessly integrating into both indoor and outdoor spaces. Its adhesion allows application on various materials, while medium traffic resistance and impermeability make it ideal for diverse areas. The continuous, hygienic surface, easy to clean, and compatibility with underfloor heating make Microoverlay the smart choice for uncompromising style.

ELEGANZA IN OGNI AMBIENTE ELEGANCE IN EVERY ROOM

Il pavimento nuvolato è una soluzione dall'aspetto estetico molto ricercato, capace di rendere straordinari anche gli ambienti quotidiani e di lavoro. Il calcestruzzo, con il suo mood industriale, diventa una vera e propria opera d'arte, dando vita a realizzazioni ogni volta uniche e differenti. La superficie della pavimentazione appare piacevolmente sfumata, con variazioni di colore più scure che risaltano su uno sfondo più chiaro, come se fossero delle nuvole. La gamma cromatica è ampia, permettendo di creare pavimenti nuvolati completamente personalizzati, con gradazioni di colore irripetibili.

The nuvolato effect floor is a solution with a highly refined aesthetic appearance, capable of making everyday and work environments extraordinary. Concrete, with its industrial mood, becomes a real work of art, bringing to life creations that are different and unique each time. The pavement surface appears pleasantly shaded, with darker color variations that stand out against a lighter background, as if they were clouds. The chromatic range is wide, allowing you to create completely customized cloudy floors with unrepeatable shades of color.

Skyconcrete Indoor unisce l'eleganza dell'effetto nuvolato con la praticità di un rivestimento ultra-sottile, solamente 2 mm. Perfetto per trasformare pavimenti esistenti, offre 34 colori personalizzabili, ideali per ambienti ad alto traffico come uffici e negozi. Con resistenza superiore all'usura e agli urti, permette un rapido rinnovamento delle superfici senza rimozione o demolizione, risparmiando tempo e denaro. Compatibile con vari substrati, è facile da pulire e sicuro per l'ambiente, adatto anche ai sistemi di riscaldamento a pavimento.

Skyconcrete Indoor blends the elegance of cloud-like effects with the practicality of an ultra-thin coating, just 2 mm thick. Perfect for transforming existing floors, it offers 34 customizable colors, ideal for high-traffic areas like offices and shops. With superior resistance to wear and impact, it allows for quick surface renewal without removal or demolition, saving time and money. Compatible with various substrates, it's easy to clean and environmentally safe, suitable even for underfloor heating systems.

MOVIMENTO E BELLEZZA MOVEMENT AND BEAUTY

Skyconcrete Outdoor offre texture sofisticate sia per pavimenti nuovi che per il restyling di quelli esistenti, con 34 opzioni di colore tra cui scegliere. Le sue proprietà antiscivolo garantiscono sicurezza, rendendolo perfetto per zone ad alto traffico. Coniugando fascino estetico e resistenza, questo rivestimento si distingue per la sua durabilità e resistenza all'usura. Grazie alla sua versatilità e alle prestazioni di alto livello, Skyconcrete Outdoor rappresenta la scelta ideale per chi cerca una perfetta combinazione di bellezza e funzionalità nei pavimenti esterni.

Skyconcrete Outdoor offers sophisticated textures for both new and refurbished floors, with 34 color options to choose from. Its non-slip properties ensure safety, making it perfect for high-traffic areas. Combining aesthetic appeal with durability, this coating stands out for its resilience and resistance to wear. Thanks to its versatility and high-performance qualities, Skyconcrete Outdoor represents the ideal choice for those seeking a perfect combination of beauty and functionality in outdoor flooring.

VINTAGE DI TENDENZA STYLISH VINTAGE

Deco Acidificato offre superfici uniche e ricercate, con un fascino vintage evocativo di patine consumate dal tempo. Ottenuto tramite una speciale colorazione acida, crea effetti cromatici suggestivi e duraturi. Altamente personalizzabile, si adatta perfettamente a vari ambienti, trasformando il cemento in un rivestimento decorativo impattante. Apprezzato da designer e architetti, garantisce bellezza e durabilità in spazi commerciali e residenziali.

Deco Acidificato offers unique and refined surfaces, with a vintage charm reminiscent of weathered patinas. Achieved through a special acid staining process, it creates lasting and evocative color effects. Highly customizable, it seamlessly fits various environments, transforming concrete into a striking decorative finish. Appreciated by designers and architects, it ensures beauty and durability in both commercial and residential spaces.

BELLEZZA E RESISTENZA BEAUTY AND RESISTANCE

Pavilux consente di realizzare superfici ad alte prestazioni: pavimenti in quarzo sferoidale tedesco e corindone, caratterizzati da un'elevata resistenza all'attrito e all'impatto accidentale; pavimenti in quarzo sferoidale tedesco e acciaio, capaci di impedire la formazione di scintille e quindi il rischio di incendi in caso di caduta accidentale di materiali ferrosi. Facile da pulire e mantenere, Pavilux è ideale per pavimentazioni civili, commerciali e industriali: parcheggi, piazzali, vialetti, marciapiedi, porticati, rampe, porti, aeroporti, industrie chimiche, siderurgiche, metalmeccaniche, metallurgiche, elettriche, elettroniche, centri direzionali e logistici, centri commerciali.

Pavilux enables the creation of high-performance surfaces: German spheroidal quartz and corundum floors, offering exceptional resistance to rolling and sliding friction as well as accidental impact; German spheroidal quartz and steel floors, designed to prevent spark formation and, consequently, the risk of fire in the event of accidental drops of ferrous materials. Easy to clean and maintain, Pavilux is ideal for civil, commercial, and industrial flooring: parking lots, squares, walkways, sidewalks, porches, ramps, ports, airports, chemical, steel, mechanical, metallurgical, electrical, and electronic industries, as well as business and logistics centers, and shopping malls.

VERSATILITA' E PRESTAZIONI VERSATILITY AND PERFORMANCE

Pavilux Sablée consente di creare pavimenti in calcestruzzo con uno spessore minimo, compreso tra 1 e 2,5 cm. Questa versatilità senza precedenti rende Pavilux Sablée la scelta ideale sia per nuove installazioni che per il restauro di superfici esistenti, sia in ambienti civili che industriali, interni o esterni.

Pavilux Sablée consente una vasta gamma di applicazioni, che includono locali pubblici, negozi, showroom, loft, porticati, parcheggi, piazzali, stadi, vialetti, marciapiedi e rampe.

Pavilux Sablée enables the creation of concrete floors with a minimal thickness, ranging from 1 to 2.5 cm. This unparalleled versatility makes Pavilux Sablée the ideal choice for both new installations and the restoration of existing surfaces, in both residential and industrial environments, indoors or outdoors.

Pavilux Sablée is the preferred choice for a wide range of applications, including public spaces, shops, showrooms, lofts, covered walkways, parking lots, courtyards, stadiums, pathways, sidewalks, and ramps.

VERSATILITA' E PRESTAZIONI VERSATILITY AND PERFORMANCE

Oxydecor è la gamma di rivestimenti decorativi Isoplam capaci di ricreare l'effetto di materiali molto utilizzati nell'architettura e nel design contemporanei, come l'acciaio Corten (Oxydecor Rust), l'acciaio zincato (Oxydecor Zinc), il rame (Oxydecor Copper) e il verderame (Oxydecor Verderame).

Perfetto per rivestire superfici verticali interne ed esterne, anche di ampie dimensioni, Oxydecor si applica con ottimi risultati anche su mobili, complementi di arredo e oggetti di design, dando loro uno stile industrial al tempo stesso raffinato e materico.

Oxydecor is the range of Isoplam decorative coatings capable of recreating the effect of materials widely used in architecture and in contemporary design, like Corten steel (Oxydecor Rust), galvanized steel (Oxydecor Zinc), copper (Oxydecor Copper) and verdigris (Oxydecor Verderame).

Perfect for covering internal and external vertical surfaces, even of large dimensions, Oxydecor can be applied with excellent results also on furniture, furnishing accessories and design objects, giving them an industrial style that is both refined and material.

RIVESTIMENTI SCENOGRAFICI SCENIC COVERINGS

Plamina è il raffinato rivestimento decorativo per interni ideato e prodotto da Isoplam per creare sulle superfici suggestivi effetti metallici e donare un' inconfondibile patina preziosa in stile industrial a pareti, soffitti, mobili, complementi di arredo e oggetti di design.

Plamina è disponibile in un'ampia gamma di versioni: bronzo, ferro, ottone, stagno, rame, zinco. I suoi effetti metallici – realizzabili sia nella variante materica che in quella liscia – possono rivestire qualsiasi materiale usato in architettura come intonaco, cartongesso, calcestruzzo, legno, fibrocemento, metallo e plastica.

Plamina is the refined decorative coating for interiors designed and produced by Isoplam to create suggestive metallic effects on surfaces and an unmistakable patina of industrial style on walls, ceilings, furniture, furnishing accessories and design objects. Plamina is available in a wide range: bronze, iron, brass, tin, copper, zinc. Its metallic effects - realizable in both material and smooth versions - can cover any material used in architecture, as plasters, plasterboard, concrete, wood, fiber cement, metal and plastic.

Isoplam® è azienda con sistema di Gestione Qualità Certificato UNI EN ISO 9001:2015 e socio Green Building Council Italia che garantisce il rispetto di rigidi criteri di sicurezza, rispetto per l'ambiente e affidabilità. Tutte le materie prime e i prodotti Isoplam® sono marcati CE, in conformità ai criteri generali per la sicurezza stabiliti dalle direttive dell'Unione Europea e recepite in leggi dai singoli stati membri. Il meticoloso controllo effettuato dal laboratorio interno su ogni singolo lotto di produzione garantisce la migliore qualità dei prodotti Isoplam® e l'esclusivo packaging li mantiene inalterati nel tempo, proteggendoli dagli agenti esterni.

Il risultato finale è coperto da assicurazione e garanzia solo ed esclusivamente in caso di corretta applicazione del ciclo Isoplam® secondo le nostre schede tecniche e voci di capitolato, da parte di applicatori autorizzati Official Partner Isoplam®.

Isoplam® is a company with a UNI EN ISO 9001: 2015 Certified Quality Management System and a member of the Green Building Council Italy which guarantees compliance with strict safety criteria, respect for the environment and reliability. All Isoplam® raw materials and products are CE marked, in compliance with the general safety criteria established by the European Union directives and implemented into laws by the individual member states. The meticulous control carried out by the internal laboratory on each individual production batch guarantees the best quality of Isoplam® products and the exclusive packaging keeps them unaltered over time, protecting them from external agents.

The final result is covered by insurance and warranty only and exclusively in case of correct application of the Isoplam® cycle according to our technical data sheets and specification items, by authorized Isoplam® Official Partner applicators.

CREDITS

Isoplam srl si riserva il diritto di modificare o sostituire alcuni dei campioni presenti nella cartella colori. Ogni cemento creativo Isoplam è unico. I colori raffigurati in questo catalogo sono solo rappresentativi: nella superficie finita sono possibili differenze cromatiche e variazioni di luminosità non riproducibili nelle immagini e nei campioni. Ti aspettiamo nel nostro showroom per conoscere dal vivo tutte le potenzialità decorative delle nostre soluzioni.

Isoplam srl reserves the right to modify or replace some of the samples in the color chart. Each Isoplam creative concrete is unique. The colors shown in this catalog are only representative: chromatic differences and variations in brightness are possible in the finished surface which cannot be reproduced in the images and samples. We are waiting for you in our showroom to get to know all the decorative potential of our solutions in real time.

Concreativity

Quando la tua creatività progettuale e la nostra conoscenza del cemento si incontrano, nascono superfici a basso spessore impeccabili e destinate a durare nel tempo.

Da oltre 40 anni, Isoplam produce i materiali, cura la posa in opera e garantisce la qualità del lavoro finito.

Sembra una normale texture, ma tu e noi sappiamo che questa è Concreativity.

**Lasciati ispirare dalle nostre realizzazioni
oppure scegli il colore giusto per te.**

Concreativity

When your design creativity and our knowledge of concrete meet each other, flawless low-thickness floors are born, destined to last over time.

For over 40 years Isoplam has been producing materials, taking care of the installation and guaranteeing the quality of the finished work.

It looks like a normal texture, but you and we both know that this is Concreativity.

***Be inspired by our creations
or choose the right color for you.***
